**\*DRAFT-DELIBERATIVE\* ATTORNEY-CLIENT PRIVILEGE\***

Hi John,

Attached is a draft issue paper I have developed with others (Mike, Jim C., Region 10) as briefing material for the 31 July briefing for Denise Keehner and 30 July pre-briefing for Tom Wall on the Pend Oreille TMDL for temperature.

I did my best to incorporate comments from folks despite my training schedule this week, and given the sometimes conflicting nature of the comments.

Note: R10 ORC posed a couple questions about the paper as follows which I have not addressed:

· The HQ Informal Technical Review Team recommends that this (or any revised) TMDL administrative record include the following:

**Ex. 5 - Deliberative**

**Ex. 5 - Deliberative**

Sarah - I agree with your conclusion.

Also attached are 5 items referenced within the issue paper, a flow chart of EPA options/legal risk, and a watershed map (these attachments are unchanged since the email in which I distributed them to R10 and HQ folks, including yourself, on July 12).

Please review and let me know your questions/concerns. I'll plan to send these to Tom Wall 5 pm Friday, July 26, unless I hear otherwise from you.

I've changed my plans and I will be in the office on Monday, July 29.

Sarah
